Education

[Centurion University of Technology and Management]	Bhubaneswar
Bachelor of Computer Application(B.C.A) Computer Engineering	2025-2029
CGPA (1 st Semester): [7.95/10]	

Experience

[Back-End Development Intern – QSkill Virtual Internship Program]	
- Worked on backend development concepts and project-based learning. - Built and improved web application functionalities using JavaScript and Node.js. - Gained experience in APIs, databases, and real-time application workflows.	April2026-May2026

Projects

[Gamify222 – Smart Education Platform]	(October 2025)
Description: [Developed an interactive platform to enhance learning experience through gamification.] Role: [Designed frontend components and implemented core features for user engagement.] Technologies Used: [TypeScript, JavaScript, HTML, CSS] GitHub: [https://github.com/RajeshKumar92828282/gamify222]	
[Job Portal Backend System]	
Description: [Developed a backend system for managing job listings and user applications.] Role: [Implemented REST APIs, authentication, and database operations.] Technologies Used: [Node.js, Express.js, MongoDB] GitHub: [https://github.com/RajeshKumar92828282/E-commerce]	(April 2026)
[GDG Hackathon Project]	
Description: [Developed a web-based solution during hackathon integrating frontend, backend, and AI services.] Role: [Contributed to backend logic and integration of real-time features.] Technologies Used: [JavaScript, Node.js, Web Development, AI Integration] GitHub: [https://github.com/RajeshKumar92828282/GDG_HACKATHON]	(May 2026)

Certification

[Oracle Cloud Infrastructure 2025 Certified Developer Professional]	(Oct 2025)
Description: [Gained hands-on experience in cloud infrastructure, and scalable application development.] Technologies Used: [Cloud Computing, Oracle Cloud Infrastructure, System Design]	
[Software Engineering Virtual Experience – JPMorgan Chase & Co. (Forage)]	(jan 2026)
Description: [Completed practical tasks involving REST APIs, backend systems, and data integration.] Technologies Used: [Java, REST API, Backend Development, System Integration]	

Additional

Technical Skills: React, JavaScript, Node Js , Express Js, Mongo DB, Mysql, Python, C++, Java
Academic Achievements : [1st Position – Code Golf Competition (Engineer’s Day) 2025 , National Coding League 2024 – Regional Qualifier (Scaler)]
